

I am commenting in SUPPORT of current FM TRANSLATOR SERVICE, over the expansion of (or higher priority of) LPFM stations. Current FM translators provide my household with valuable family programming from stations like K-LOVE FM, with it's national network of FM Translator Service Stations.

Without the translator service, many areas of the country would not be able to receive the K-LOVE signal as they do now. This would include many parts of my current listening area, as well as those areas whose signal we receive when traveling.

This valuable service to my local area and others is one of the few family-friendly FM signals available. If it were removed and replaced by some sort of LPFM set of stations, K-LOVE would not be heard in my listening area. This also applies to their sister station, Air-1. Please do not let current FM Translator Service be denigrated or removed.

Thanks very much, Ken Rosfeld
